INDEX TO COMMUNICATIONS OF THE ACM

- AUTHOR INDEX
- ARTICLES INDEX
- COMPUTING PRACTICES INDEX
- REPORTS INDEX
- DEPARTMENTS INDEX
- COLUMNS INDEX
- OBITUARIES INDEX
- FORUM INDEX
- TECHNICAL CORRESPONDENCE INDEX

Entries in this Index are technical papers, short communications, award papers, educational reports, special papers, and topical articles. Algorithms are indexed separately.

The KEY in each entry gives the volume number and year (3390), the issue number (which is also the number of the month), and the beginning page number.

The AUTHOR INDEX lists the entries in order of alphabetized authors' names. If there is more than one author for a paper, each author is listed separately in alphabetical order, therefore, in this section a single entry would not include coauthors' names.
